U.S. v. AVX Original Litigation Document

Mr. Merrill Hohman  
Division Director  
United States EPA  
Waste Management Division  
J.F. Kennedy Federal Building  
Boston, Massachusetts 02203

Dear Mr. Hohman:

As you are undoubtedly aware, we are very concerned with the PCB situation in the New Bedford area. Although this company never employed the chemical, we are doing everything we can to co-operate with both EPA and the State's Environmental Organization relative to assessing the problem and finding viable solutions.

The purpose of this letter is to suggest a meeting with you, others in your staff and some of our people. This meeting can be held in Boston, or here, at your selection. We can start with a formal agenda, or simply open up the discussion and see where it went.

Your thoughts on this matter are appreciated.

Very truly yours,
