Subject: Re: NBH - South Terminal

Cynthia,

Hopefully this is not too late. Tim Timmerman may have ready provided you with some questions. But I wanted to mention that Tim and I plan to ask the consultant to provide more detail about the Construction Management Plan. There are general commitments but we would like to see a more proactive approach to mitigating construction-related impacts in the Enhancement Request (e.g. commitment to diesel retrofits). Also, since they did a good job confirm that the project is located in close proximity to an EJ community, we could like to see more information on how they will engage this community during the construction phase (e.g. who will be the point of contact to respond to questions from the community about construction).

Thanks,
Amy
