Subject: RE: quick question

Hi Phil,

The monitoring plan is still in place. It's described in the Commonwealth's January 18, 2012 submission. In the mitigation section. Maybe under monitoring, not sure exactly which part, but that's where you need to look, and the proposal for the monitoring is in the corresponding Appendix.

Thanks,

Subject: quick question

Chet,

I seem to recall, but am having a hard time finding where this may be written down. Per the winter flounder spawning mitigation site, the Commonwealth had talked about a post-construction monitoring program. I assume that commitment is still in place and where in all of the documents could I locate that, so I could cite it.

Thanks
Phil
