Delivered Date: 09/23/2010 10:38 AM EDT

Subject: Fw: Rabbit Skull from NB Harbor

Tom confirms that the rabbit skull we removed from a carcass found at the site of the proposed South Terminal Extension project in New Bedford, MA was an eastern cottontail (*S. floridanus*) and not the federal candidate, New England cottontail (*S. transitionalis*).

Michael:

Yes. It is an Eastern Cottontail.

Tom
