**Subject:** Biological Assessment for South Terminal - Assumptions

Hi All,

We will notify you immediately if any of the attached assumptions are not met. As you are aware, the schedule is very aggressive. If the assumptions as shown in these bullets are not accurate - USACE will likely miss the deadline. The last bullet is critical so we will be working with EPA to ensure that FWS is actively involved from the beginning. Thank you for giving us the opportunity to make this happen for you.

Our budget for this work is ~20K.
