**Delivered Date:** 07/16/2010 10:38 AM EDT

**Subject:** draft of alternatives analysis

Matt et al:

Attached is a draft of portions of the report. This portions we are sending now in draft form present the project purpose, a more detailed description of the anticipated uses of the terminal, and a demonstration that the preferred location is the only viable location for a marine terminal that has as a primary purpose the support of offshore renewable energy. Other sections of the report, dealing with impact analysis, mitigation options, and other topics will be submitted in draft form when they are complete.

Note that the draft references a number of appendices. We have a CD containing these appendices, and Deerin will provide a copy of the CD to you on Monday.

Thank you for agreeing to look at this draft and we look forward to feedback from you.

Kenneth L. Kimmell
