Thanks Chet. I haven't read it yet...I'll need a fresh start in the morning for that. However, could you turn the Fish Deterrent Plan in the October submission into a separate document. I was thinking it might be clearer to make it an attachment to the Water Quality Performance Standards.

Thanks for the revised clarification. Attached are EPA's comments...you'll see additional language highlighted in yellow so you can distinguish it from earlier redline comments. We'll look forward to seeing the revised Performance Standards document.
