Chet,

Thanks, this looks like what we needed.

Can I add one more request: Could you update Appendix S to the June 18, 2012 submittal. When you are updating, could you either add another column or add a footnote explaining how many cubic yards are associated with each of the additional work tasks of deep draft dredging, expanded channel width, and larger CAD. Once updated, should I assume that the figure in the column entitled, "Top of Dredge" is the total amount of contaminated sediments to be dredged?

Hi Cindy,

Attached is an updated A2 Configuration with the land areas on each property as you requested.

We are working on the other drawing as well.

Thanks,
