ATTACHMENT: image003.png

Hi Cindy:

Hope you are staying dry and warm. We saw the comments on turbidity. Chet and I are thinking the best way to clarify the silt curtain use is to prepare a summary note that covers all the scenarios in a response-to-comment memo as we have with the other questions. Do you agree? If so, would it be possible to have a brief call with you today to go over the scenarios so we can all be on the same page when we prepare the note? If so, let us know number and time where we could reach you. Thanks! - J

Chet,

Thanks for your response on the 21E questions. I have been working without power so moving more slowly through things. Would it be possible to add the acreage to the map you provided? For the parcels that are only partially affected by the Project, please only show the acreage that is impacted by the Project, not the full parcel acreage.

Also, has the map in Attachment A of the 6/29/12 submittal changed? If so, could you update and resend. (It is also Figure 1 in the Draft Determination).

And, you saw my earlier email today about revising the Water Quality/Turbidity Standards.

There may be other things but is all I have for now. Thanks.

Subject: Additional Questions/Comments/Plans

Hi Cindy,

Hope you are staying dry. When we spoke on Friday, you indicated that you may have further requests from the Commonwealth regarding additional plans, responses to questions, etc.

We did not receive additional questions from you over the weekend. Was the response to your Phase I questions, and the updated A2 drawing, sufficient?

Thanks,

Chet
