Delivered Date: 09/13/2012 05:17 PM EST

Subject: NMFS letter

Hi Chet - in order to respond to the NMFS letter (attached) and inform some decisions we have to make, we need to get some additional information from you folks. If you would refer to the following sections of the document and prepare to provide the necessary information to us that would be great:

Page 2 - we need to discuss the additional proposed work in order to determine it's necessity to the project purpose and need.

Page 3 - we need more information regarding the amount of bottom rip-rap fill and where/why it is necessary to be used.

Page 4 - we need an explanation of why only quahogs being reseeded and not the scallops, mussels and oysters.

I'd like to set up a call for early next week if possible.

Thanks,
Jackie
