Subject: FW: Optimized Ports Assessment - Executive Summary (UNCLASSIFIED)

ATTACHMENT: 700694-USPO-R-02-A_Report requirements for ports-Summary 120719.pdf
Classification: UNCLASSIFIED
Caveats: NONE

Ann and Cindy:

Enclosed for your review is an electronic copy of Garrad Hassan's executive summary for their ongoing Optimized Ports Assessment. This summary provides an overview of port infrastructural requirements that are necessary to support various types of off-shore wind energy projects. Garrad Hassan is currently conducting a survey of U.S. ports to determine which ports are best positioned to support the development of off-shore energy projects as well as where the major infrastructural gaps exist. Garrad Hassan is planning on scheduling a workshop in September in Portland, Maine to discuss these findings in greater detail. Thanks.

Chris:

Would you please forward me a copy of the executive summary for Garrad Hassan's ongoing Optimized Ports Assessment with associated port infrastructural requirements? Thank you.
