Subject: South Terminal Project in New Bedford - Potential meeting with EPA to discuss the REVISED Successional Marsh Mitigation Plans (UNCLASSIFIED)

Classification: UNCLASSIFIED

Caveats: NONE

Chet, Jay, and Gary:

The EPA South Terminal Team is interested in scheduling a time to meet with the Commonwealth and Apex to discuss the REVISED design for the Successional Marsh Mitigation work associated with the South Terminal Project. The EPA wants to get a better idea if the necessary salt marsh (and possibly the freshwater wetland) mitigation can still be accomplished at the Successional Marsh Mitigation site.

Please let Ann Williams and I know if you would be available to meet next Tuesday, August 14th at 1:00 p.m. at the EPA offices to discuss this issue. Thanks.
