Explanation of Significant Differences
(ESD)
Operable Unit 1 – Sitewide

Index

ESD Dated September 2010
Released October 2010

Prepared by
EPA New England
Office of Site Remediation & Restoration

Introduction to the Collection

This is the administrative record for the Pownal Tannery Superfund Site, North Pownal, Vermont, Operable Unit 1, Explanation of Significant Differences (ESD), released September, 2010. The file contains site-specific documents and a list of guidance documents used by EPA staff in selecting a response action at the site.

This file includes, by reference, the administrative record file for the Pownal Tannery Removal Action, issued April 1993; the Non-Time Critical Removal Action (NTCRA), issued March 1999; the Record of Decision (ROD), issued September 2002; and the Explanation of Significant Differences (ESD), issued September, 2007.

The administrative record file is available for review at:

EPA New England Office of

Questions about this administrative record file should be directed to the EPA New England site manager.

An Administrative Record is required by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA).

Please note that the compact disc(s) (CD) containing this Administrative Record may include index data and other metadata (hereinafter collectively referred to as metadata) to allow the user to conduct index searches and key word searches across all the files contained on the CD. All the information that appears in the metadata, including any dates associated with creation of the indexing data, is not part of the Administrative Record for the Site under CERCLA and shall not be construed as relevant to the documents that comprise the Administrative Record. This metadata is provided as a convenience for the user and is not part of the Administrative Record.

Questions about this Administrative Record file should be directed to the EPA New England site manager.
