Re: Savage Well Superfund Site
Consent Decree Docket No. 94-174
September Progress Report

Dear Mr. Hull:

In accordance with the Savage Well Site Consent Decree and your correspondence of September 17, 1996, the Settling Parties hereby submit four copies of the monthly progress report as required by Article XI of the Consent Decree.

If you have any questions, please do not hesitate to call.

Yours truly,

GRADIENT

MONTHLY PROGRESS REPORT

SAVAGE WELL SUPERFUND SITE
DOCKET #94-174
REPORTING PERIOD: September 2010

MONTHLY PROGRESS REPORT #190
DATE: October 11, 2010

This report is being submitted pursuant to Section XI, Paragraph 34 of the Consent Decree (CD). This progress report summarizes the work performed by the Settling Parties during September 2010.

PROGRESS DURING REPORTING PERIOD

ACTIONS TAKEN TOWARD ACHIEVING COMPLIANCE WITH CD:

The OU-2 groundwater remediation system continued to operate in September with a total average extraction rate of approximately 403 gpm. Treated water continues to be discharged to the subsurface and the Souhegan River. The cumulative subsurface injection rate was approximately 340 gpm (IW-1 at approximately 100 gpm, IW-2 at approximately 125 gpm, and IW-3 at approximately 115 gpm). The balance of the treated water was discharged to the Souhegan River surface water discharge structure. The metals treatment system continues to effectively treat metals (metals generally non-detect in system effluent), being compliant with both surface water effluent discharge limits established by NHDES and design requirements of the system.

VALIDATED DATA/RESULTS AND TESTS RECEIVED OR GENERATED:

- None.

WORK PLANS, PLANS AND OTHER DELIVERABLES SUBMITTED

- None.

MODIFICATIONS TO WORK PLANS OR OTHER SCHEDULES:

- None

PROBLEMS/UNRESOLVED DELAYS ENCOUNTERED AND ACTIONS TAKEN:

- None.

SITE ACCESS

- None.
