

RISK MANAGEMENT PROGRAM (RMP) Training

Wednesday, May 15, 2013

Pocatello, Idaho

The **Environmental Protection Agency (EPA)** is offering **FREE RISK Management Program training**, providing information about how to comply with the RMP reporting and emergency planning requirements. The instructors are EPA staff with extensive experience in RMP inspections and compliance assistance.

This training is for ...

***Safety, Process Safety, Operations and Plant Managers;
Environmental, Engineering and Maintenance Managers;
RMP and PSM Coordinators;
Supervisors, Operators and Maintenance Technicians; and
Technical, Safety and Environmental Professionals.***

Major components of the RMP training:

- General review of RMP elements, common inspection deficiencies and tips on using RMP*eSubmit for on-line updates/corrections to your RMP. Answers to your questions about the Risk Management Program.

To Register: In order to guarantee a space, please send the following information:

- Name and email of person/s attending (limit 2 per facility)
