ACTION: Final rule.

SUMMARY: By this notice, EPA is approving numerous revisions to the Oregon state implementation plan (SIP) as submitted by the State of Oregon Department of Environmental Quality on May 31, 1986 and July 11, 1986. This action will result in an updated SIP, rescinding provisions which are no longer needed, revising and updating certain rules and sections of the SIP and adding rules which were not previously included in the SIP. These revisions were submitted to satisfy the requirements of section 110 of the Clean Air Act (hereinafter referred to as the Act).

SUPPLEMENTARY INFORMATION:

I. Background

The Clean Air Act of 1970 required states to submit state implementation plans (SIPs) to EPA which provided for implementation, maintenance and enforcement of the national ambient air quality standards. The SIP contains statutes, rules, strategies, and programs which demonstrate a state's ability to attain and/or maintain compliance with the national ambient air quality standards (NAAQS) in all areas. In 1972, the Oregon Environmental Quality Commission adopted the initial Oregon SIP which was approved by EPA on May 31, 1972 (37 FR 10888). As a result of the Clean Air Act Amendments of 1977, the Oregon Department of Environmental Quality (ODEQ) submitted a revised SIP on June 27, 1979, and July 6, 1979, portions of which were approved by EPA on June 24, 1980 (45 FR 42265).

Since 1972 ODEQ has been responsible for developing revisions and additions to the SIP as needed to maintain the NAAQS. During the past 16 years there have been numerous SIP revisions submitted by ODEQ, some of which have been approved by EPA and some of which have yet to be acted upon. As a result, the contents of the EPA-approved Oregon SIP were often in question. To rectify this problem, ODEQ undertook a several-year effort to revise and reorganize its entire SIP.

On May 30, 1986, the State of Oregon Department of Environmental Quality (ODEQ) submitted to EPA a request to rescind the existing SIP and replace it with an updated SIP. Additionally, on July 11, 1986, ODEQ submitted the "Specific Air Pollution Control Rules for the Medford-Ashland Air Quality Maintenance Area" (OAR 340-30-015, 030, 031, 040 and 055).

EPA reviewed the numerous amendments to the Oregon SIP and found that the revisions met the criteria in accordance with section 110 of the Clean Air Act and 40 CFR part 51. On November 3, 1988 (53 FR 44487) EPA provided a 30-day public comment period on its proposed approval of the ODEQ request. No comments were received.

II. Summary of Action

EPA is today approving numerous revisions to the Oregon SIP as submitted by ODEQ on May 30, 1986 and July 11, 1986.

Specifically EPA is approving revisions to the following sections of Volume 2 [The Federal Clean Air Act

Implementation Plan (and Other State Regulations)] and section 3 [Statewide Regulatory Provisions—Chapter 340]:

Section 1 Introduction
Section 2 General Administration
Section 3 Statewide Regulatory Provisions,
Subsection 3.1 Oregon Administrative
Rule—Chapter 340
OAR 340-14-005 to 050 Procedures for
Issuance of Permits
OAR 340-20-046 Records, Maintaining and
Reporting
OAR 340-20-047 "State of Oregon Clean
Air Act, Implementation Plan"
OAR 340-30-015(2) Specific Air Pollution
Control Rules for the Medford-Ashland
Air Quality Maintenance Area
OAR 340-31-105 PSD Definitions
Section 4 Control Strategies for
Nonattainment Areas
Section 5 Control Strategies for Attainment
and Nonattainment Areas
Section 6 Ambient Air Quality Monitoring
Program
Section 8 Public Involvement
Section 9 Plan Revisions and Reporting

EPA is approving the deletion of the following provisions of section 3.1:

OAR 340-11-005 to 035 Rules of Practice
and Procedure
OAR 340-13-005 to 035 Wilderness,
Recreational, and Scenic Area Rules
OAR 340-20-100 to 135 Rules for Indirect
Sources
OAR 340-24-005 to 040 Motor Vehicle
Rules
OAR 340-24-311 and 337 Motor Vehicle
Noise Rules
OAR 340-25-055 to 080 Reduction of
Animal Matter
OAR 340-28-001 to 090 Specific Air
Pollution Control Rules for Clackamas,
Columbia, Multnomah, and Washington
Counties
OAR 340-31-045 Particle Fallout
OAR 340-31-050 Calcium Oxide (Lime
Dust)

In addition to the May 30, 1986, submittal, EPA is also approving revisions to the Specific Air Pollution Control Rules for Medford-Ashland Air Quality Maintenance Area" (OAR 340-30-015, 030, 031, 040 and 055) which were submitted to EPA on July 11, 1986.

There are two revisions which were submitted to EPA on May 30, 1986, that will not be processed in this rulemaking action. Instead EPA will prepare separate Federal Register Notices of Rulemaking proposing action on OAR 340-25-150 to 205 Kraft Pulp Mills and OAR 340-25-305 to 325 Board Products Industries.

On February 24, 1986, ODEQ submitted extensive revisions to the ozone control strategy for the Portland-Vancouver Air Quality Maintenance Area (section 4.3) and certain implementing rules (OAR 340-22-100 to 220, OAR 340-20-155(i) Table 1, and

OAR 340-20-241). These revisions supersede the respective sections in the May 30, 1988 submittal (even though they predate that submittal). EPA will not be acting on these provisions in this rulemaking, but instead, will prepare a separate **Federal Register** Notice of Rulemaking if warranted pursuant to the Clean Air Act Amendments of 1990.

On August 5, 1985, and December 5, 1986, ODEQ submitted extensive revisions to title 14, 34, and 38 of Lane Regional Air Pollution Authority's (LRAPA) rules. Since portions of these submittals supersede parts of the May 30, 1988 submittal, EPA will take action on all of these requested revisions to the LRAPA rules in a separate **Federal Register** Notice of Rulemaking.

III. Administrative Review

This action has been classified as a Table 3 action by the Regional Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214-2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of two years and has been extended.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic and environmental factors and in relation to relevant statutory and regulatory requirements.

The Agency has reviewed this request for revision of the federally-approved state implementation plan for conformance with the provisions of the 1990 Clean Air Act Amendments enacted on November 15, 1990. The Agency has determined that this action conforms with those requirements irrespective of the fact that the submittal preceded the date of enactment.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 30, 1991. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to

enforce its requirements. (See 42 U.S.C. 7607(b)(2).)

Under 5 U.S.C. 605(b), I certify that this revision will not have a significant economic impact on a substantial number of small entities (see 46 FR 8709).

Indiana: Final Authorization of Revisions to State Hazardous Waste Management Program**AGENCY:** Environmental Protection Agency.**ACTION:** Immediate final rule.

SUMMARY: Indiana has applied for final authorization of revisions to its authorized hazardous waste program under the Resource Conservation and Recovery Act of 1976 as amended (hereinafter "RCRA" or the "Act"). The Environmental Protection Agency (EPA) has reviewed Indiana's application and has reached a decision, subject to public review and comment, that Indiana's hazardous waste program revisions satisfy all the requirements necessary to qualify for final authorization. Thus, EPA intends to grant final authorization to Indiana to operate its revised program, subject to authority retained by EPA under the Hazardous and Solid Waste Amendments of 1984 (Pub. L. 98-616, November 8, 1984, hereinafter "HSWA").

DATES: *Effective date:* Final authorization of Indiana's application shall be effective September 30, 1991 unless EPA publishes a prior Federal Register action withdrawing this immediate final rule.

All comments on Indiana's program revision application must be received by 4:30 p.m. central standard time on August 14, 1991.

ADDRESSES: Copies of Indiana's program revision application are available for inspection and copying, from 8:30 a.m. to 4:30 p.m., at the following addresses: Indiana Department of Environmental Management, Hazardous Waste Management Branch, 105 South Meridian Street, Indianapolis, Indiana 46206, Contact: Michael Dalton, (317) 232-8884; U.S. EPA Headquarters Library, PM 211A, 401 M Street SW., Washington, DC 20460, phone (202) 382-5926; U.S. EPA Region V, Waste Management Division, Office of RCRA, 230 South Dearborn Street, Chicago, Illinois 60604, Contact: George Woods, (312) 886-6134.
