## East Mission Flats: Questions and Answers Available

You may be among a group of citizens who have expressed interest in the East Mission Flats Waste Repository near Cataldo, Idaho. Several concerns have come up. Among them are how close the repository sits to the Old Mission; whether the repository can be seen from the Old Mission; whether the repository poses a risk to wetlands; whether flooding poses a risk to the repository; and what's going to happen next. DEQ and EPA are planning community informational meetings in October. Stay tuned for more information.
