RE: Ecology Concurrence with ROD Amendment for FMC Corporation (Yakima)
Superfund Site
Facility Site ID No.: 102

Dear Mr. Opalski:

Thank you for providing the Washington State Department of Ecology (Ecology) with the opportunity to review the Record of Decision (ROD) Amendment for the FMC Corporation Yakima Site.

Ecology has reviewed the ROD amendment and concurs with the United States Environmental Protection Agency selected amended remedy for the Site. The selected amended remedy provides for long-term protection by implementing institutional controls to limit exposure to hazardous materials to industrial exposure assumptions. Additionally, the selected amended remedy requires implementation of a groundwater monitoring program until it is determined that groundwater potability has been achieved.

Sincerely,

Valérie Bound
