Re: EPA Approval of the Supplemental Feasibility Study Report for the Former FMC Pesticide Formulation Facility in Yakima, Washington

Dear Mr. Tollin:

The U.S. Environmental Protection Agency (EPA) has reviewed the Supplemental Feasibility Study Report for the FMC Yakima Superfund Site, a former FMC pesticide formulation facility in Yakima, Washington. We find the document to be acceptable, and adequate to support further Agency remedial decision making. We appreciate the effort that was made to revise it and address all of our comments.

Please contact me at 509 376-8665 if you have questions.

Sincerely,

A handwritten signature in cursive script that reads "Craig Cameron".

Craig Cameron
Project Manager.
