Re: U.S. Environmental Protection Agency Concurrence on the Five-Year Review of CERCLA Response Actions at the Naval Reactors Facility, Idaho National Laboratory

Dear Mr. Henvit:

The EPA has reviewed the February 2012 Five-Year Review of CERCLA Response Actions at the Naval Reactors Facility. My staff have advised me that all of our comments have been satisfactorily addressed. We appreciate the effort that your project team demonstrated in finalizing the document.

The document provides a clear summary of the status and protectiveness of the individual cleanup actions. Based on the information provided in the report, the EPA concurs with the determinations and recommendations of the U.S. Department of Energy, Naval Reactor Branch.

If you have any questions or concerns, please contact me at (206) 553-1855 or the INL Program Manager, Dennis Faulk, at (509) 376-8631.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel D. Opalski".
