

Sec. 4-11. General Requirements.

(a) Any owner, operator or other person responsible for any permanently discontinued or dismantled equipment coming under the jurisdiction of this regulation shall report to the Bureau within thirty (30) days the permanent discontinuance or dismantlement of such equipment, and to surrender any outstanding permit or the certificate of operation thereon.

(b) Separation of emissions. If air contaminants from a single source are emitted through two or more emission points, the total emitted quantity of any contaminant, limited in this regulation, cannot exceed the quantity which would be the allowable emission through a single emission point, and the total emitted quantity of any such air contaminant shall be taken as the product of the highest concentration measured in any of the emission points and the exhaust gas volume through all emission points, unless the person responsible for the source proves the correct total emitted quantity to be within the limits established by this regulation.

(c) Combination of contaminants prior to emission. If air contaminants from two or more sources are combined prior to emission and there are adequate and reliable means susceptible to confirmation and use by the director for establishing a separation of the components of the combined emission to indicate the nature, extent, quantity and degree of emission arising from each such source, this regulation shall apply to each source separately.

(d) Inseparable combination of contaminants prior to emission. If air contaminants from two or more sources are combined prior to emission and combined emissions cannot be separated according to the requirements of Section 14-F, this regulation shall be applied to the combined emission as if it has originated in a single source subject to the most stringent limitations and requirements placed by this regulation on any of the sources whose air contaminants are so combined.

(Code 1968, Sec. 4-9; Ord. No. 6021, Sec. 14, 3-4-69; Ord. No. 6221, Sec. 67, 9-29-70; Ord. No. 6838, Secs. 9-11, 1-14-75)

THIS IS THE FEDERALLY APPROVED REGULATION AS OF MAY 8, 1990
