
NS: Not Sampled
SOI: Soil
INV: Invertebrate
SMM: Small Mammal

NOTES:

1. Total PCB concentrations shown represent total homologues in mg/kg.
2. Soil results are presented on a dry weight basis and tissue results are presented on a wet weight basis.
3. Two small mammals were collected at UFP-06 and UFP-42. Both results are shown on the graph.
4. Small mammal samples collected at UFP-25, UFP-42, and UFP-44 are short-tailed shrews, which are carnivorous. All other small mammal samples are white-footed mice, which are herbivorous.
5. Sampling conducted October 2008
6. Aerial imagery provided by Hamilton County, 2005
