Chicago, Illinois 60604-3511

**Subject: OU-5 Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site, Area 1 Final Feasibility Study**

Dear Mr. Saric:

The final *Area 1 Revised Feasibility Study (FS)* for the OU-5 Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site has been submitted electronically in accordance with Paragraph 33 of the February 2007 Administrative Settlement Agreement and Order on Consent for Remedial Investigation/Feasibility Study (Docket No. V-W-07-C-864). The Area 1 FS was submitted electronically through a file transfer link provided to the U. S. Environmental Protection Agency (USEPA) and the Michigan Department of Environmental Quality (MDEQ) on December 19, 2014. Hard copies and CDs as listed below will follow via overnight delivery. In addition, CDs will be sent to those citizens who requested the Area 1 FS on CD during the December 11, 2014 Public Meeting in Kalamazoo, Michigan. Two hard copies will also be made available for the public repositories.

Please note that there was a slight revision in the time projected to reach fish tissue goals associated with three sediment remedial alternatives (S-3 through S-5) compared to the values provided during the December 11, 2014 public meeting. The time projected to meet fish tissue goals for smallmouth bass for S-3 and S-4 was adjusted by one year, and the time to reach fish tissue goals for S-5 was adjusted by 2 years due to a difference in rounding. This revision does not change the overall conclusions in the document.

If you have any questions, please do not hesitate to contact me.

A handwritten signature in blue ink, appearing to read 'L. Chase Fortenberry', written over a white rectangular background.

L. Chase Fortenberry, PG  
Senior Remediation Project Manager  
Environmental Engineering, Environmental Affairs
