Subject: Initial Meeting to Discuss Carboline Company

Attendance: John Nordine, USEPA Region 5
Marta Woloszyn, Booz Allen Hamilton
Chris Rees, Booz Allen Hamilton

Meeting Notes:

- John Nordine has photos of the facility that he will make available for Booz Allen Hamilton.
- Current facility operations includes Elsome Trucking, which operates a trucking dispatch out of the front office. Additionally, Seek-n-Destroy Paintball subleases the warehouse located on the facility and utilizes this space as a paintball arena.
- A manufacturing area was located behind the warehouse and located by a creek. The currently owner is in the process of demolishing this area as it was destroyed by a tornado sometime between February 2005 and February 2008.
- During the demolition the transformer was not emptied. This transformer contained non-PCB oils.
- During a previous site visit, several observations were made, including pit containing unknown materials, piles of discarded soils, and blue, polymer drums that were labeled "non-hazardous," more than 50 of these drum contained detergent.
- The facility has been working the a brownfields restoration group to clean up the site. Supposively, the facility has a clean closure from the state.
- Hull and Associates completed a basic RFA and EPA hopes to have this report shortly.
