## Notice of Construction Activity – 204 Washington - Hooven

The Recovery Well located at the former Vierling Electric Property at 204 Washington in Hooven will be the site of construction activity. This activity involves the refurbishing of the recovery well. A drill rig and crane will be at the site from July 12<sup>th</sup> until the end of the month. This activity will be fenced off to protect citizens from the ongoing construction activity. Chevron's contractors are conducting the refurbishing to maximize the performance of this recovery well. Please direct any questions regarding this activity to Christopher Black, (312) 886-1451, [black.christopher@epa.gov](mailto:black.christopher@epa.gov)
