NOTICE OF ISSUANCE OF PROPOSED CORRECTIVE MEASURES DECISION is hereby given that on February 7, 2010, the United States Environmental Protection Agency (U.S. EPA) proposes to issue a Corrective Measures Decision under the Resource Conservation and Recovery Act (RCRA) to Detroit Diesel Corporation (DDC), for its facility located at 13400 West Outer Drive, Detroit, Michigan, (U.S. EPA Identification Number MID 005 356 803) and that the U.S. EPA will be accepting comments on the proposed decision.

A RCRA Facility Investigation, along with previous environmental investigations and interim measures were performed by DDC to address areas of contamination in soil and groundwater at the facility. DDC was also awarded the U.S. EPA's 2008 Region 5 Phoenix Award and 2008 National Grand Prize for their Brownfields redevelopment efforts. Based on those efforts, the U.S. EPA has determined that DDC needs to perform further corrective measures to address remaining contaminants in groundwater at its facility, including removal and treatment of Light Non-Aqueous Phase Liquid (LNAPL) and monitoring of groundwater and LNAPL.

A public notice will appear in the Redford Observer Newspaper on February 7, 2010. The U.S. EPA is soliciting input from the community on the proposed Corrective Measures Decision for the DDC facility. The U.S. EPA has scheduled a public comment period starting on February 8, 2010, in order to encourage public participation in the Corrective Measures Decision process. During the comment period, the U.S. EPA will accept written comments on the proposed determination.

Any person interested in submitting comments on the proposed decision must do so by March 11, 2010. All comments should be submitted in writing to:
