RE: Request for Amendment to TSCA Approval
Wayne Disposal, Inc. Site #2
MID 048 090 633

Dear Ms. Setnicar:

Wayne Disposal, Inc. (WDI) is hereby requesting an amendment for the TSCA Approval issued on September 29, 2011. The amendment involves inclusion of additional chemical waste landfill capacity. WDI has submitted an application with the Michigan Department of Environmental Quality to construct additional hazardous waste landfill capacity under Michigan PA 451 Part 111 and expects to receive a license for this expansion in approximately two weeks. WDI has submitted a copy of this application to USEPA and believes that this application contains all the information needed to evaluate our request to add the additional capacity to the TSCA Approval.

To assist USEPA in considering this request, we have enclosed a copy of the Draft Guidance Document for a 40 CFR 761.75 Landfill Application that has been annotated to direct the reviewer to the appropriate volume and section of the application that addresses chemical waste landfill requirements..

If you have any questions regarding this request, please contact me at (734) 699-6265.

Sincerely,
Wayne Disposal, Inc.

Kerry Durnen
Director of Operations
