

# GI Story Worksheet

For stories to be featured on EPA Region 6's Green Infrastructure website.

**Green Infrastructure**

U.S. Environmental Protection Agency - Region 6

**Project Title:**

**Project Location:** City, state, including name of building, roadway, school, park, subdivision, office, facility, etc.

**Project Details:** 150-250 words describing the **GI/LID elements** (e.g. xeriscaped swale, rain garden, porous/permeable pavement, rainwater collection and reuse, green roof, wetland, etc.). Please include information on **project goals/objectives** (community enhancement, revitalization, water conservation, stormwater and/or flood management, urban heat island mitigation, etc.) and **benefits** (open space, urban gardening, potable water conservation, energy efficiency, walkability, etc.). Also include any information on maintenance, estimated costs, lessons learned and any noteworthy project accomplishments or recognitions. Please note funding mechanism(s) and collaborative efforts if applicable.

**Point of Contact:** Name, office, address, phone, email, website for additional information, etc.

**Photos:** Please attach **two to three high-resolution images** (JPEG, Bitmap) with your submission highlighting project construction and final project.

**Photo Credit Information:**

**Photo Caption Information:** Please include any descriptions that would help provide additional meaning to photos.

Once completed, please save this form to your computer. Then attach the completed form, along with images, to an email message sent to: **Suzanna Perea** at **[perea.suzanna@epa.gov](mailto:perea.suzanna@epa.gov)**
