

# Illinois River Project Update Conference Call

August 24, 2012

10:30 -11:30 CT

**Call in #:** 866-299-3188 **Code:** 2146657396

## A. AGENDA

1. Introduction
2. Development of the IRW Point Source Data -- Updates
3. Watershed Calibration/Validation Modeling -- Updates
4. Development of Proposed Procedures and Methodology for Sensitivity/Uncertainty Analyses -- Updates
5. Adjourn

## B. Meeting Attendees

Tony Donigian, AQUA TERRA  
Ed Dibrberg, ODEQ  
Andrew Fang, ODEQ  
Derek Smithee, OWRB  
Stacey Day, OCC  
Ed Fite, SRC  
Mike Bira, EPA  
Eugene Thilsted, EPA

Brian Bicknell, AQUA TERRA  
Mark Derischweiler, ODEQ  
Phil Moereshel, OWRB  
Edward Swaim, ANRC  
Brandy Ross, UKB  
Quang Nguyen, EPA  
Randall Rush, EPA

## C. Purpose of this Call

To update the core group on the IRW modeling activities including the development of loads for major facilities in the watershed, the calibration/validation modeling and the sensitivity/uncertainty analyses.

## D. Action Items

- 1) IRW Point Source Loads Development:
  - EPA will provide ADEQ and ODEQ all the submitted comments on the technical memo.
  - ODEQ will provide EPA more data for facilities in Oklahoma.
  - Both EPA and AQUA TERRA will contact ADEQ to go over comments provided by ADEQ.
- 2) Watershed Calibration/Validation Modeling:
  - Watershed hydrology calibration/validation modeling is ongoing. The calibration is anticipated to be completed within couple weeks, and then followed by validation. AQUA TERRA will prepare and provide to EPA a technical memo in about 4-6 weeks.

3) Sensitivity/Uncertainty Analyses:

- AQUA TERRA is developing proposed procedures and methodology for use in the sensitivity/uncertainty analyses. A technical memo will be prepared and provided to EPA in 3-4 weeks.
- ODEQ, for informational purposes, will share with EPA draft TMDLs where sensitivity/uncertainties analyses were conducted.

E. Future Meeting/Conference Call

- The next information public meeting has been scheduled for October 11, 2012. EPA will provide information on the meeting location as it becomes available.
- The next conference call is tentatively scheduled for September 28, 2012.
