

AUTHORIZATION TO DISCHARGE TO WATERS OF THE UNITED STATES,
NPDES PERMIT NO. NM0020010

The applicant's mailing address is:

Village of Hatch
P.O. Box 220
Hatch, NM 87937

The discharge from the facility is located at 1101 E. Herrera Road, in Dona Ana County, New Mexico. Under the Standard Industrial Classification (SIC) Code(s) 4952, the applicant's activities are domestic wastewater treatment operations. The effluent from the treatment plant is discharged into the Hatch Drain, thence to the Rio Grande River in Segment No. 20.6.4.101 of the Lower Rio Grande Basin. The Rio Grande is a water of the United States classified for irrigation, marginal warmwater aquatic life, livestock watering, wildlife habitat, and secondary contact. This is a renewal of a permit issued October 28, 2005, with an effective date of December 1, 2005, and an expiration date of November 30, 2008.

Changes from the previous permit are:

- A. Total aluminum, total arsenic, total copper, total nickel, and total zinc effluent limitations have been removed.
- B. The E. coli monthly geometric mean and daily maximum concentration limitations of 548 and 2507 cfu/100 ml have been changed to 126 and 410 cfu/100 ml, respectively.
- C. The pH minimum limitation of 6.0 s.u. changed to 6.6 s.u.

A Statement of Basis is available for review.
