

NPDES authorization to discharge to waters of the United States, Permit No. NM0030384

The applicant's mailing address is:

Person Generating Station
701 Electric Ave SW
Albuquerque, NM 87105

The facility is authorized to discharge from a facility located at 701 Electric Ave. SW, Albuquerque, Bernalillo County, New Mexico, from Outfall 001 located at Latitude 35° 01' 45" North and Longitude: 106° 38' 31" West. Discharges from the facility for the described activities are an unlined, non-classified, otherwise ephemeral, and unnamed dry arroyo thence to AMAFCA South Diversion Channel, thence to the Rio Grande River in segment number 20.6.4.105 of the Rio Grand Basin in direct response to a precipitation event. The known uses of the receiving water(s) are livestock watering, wildlife habitat, secondary contact, primary contact recreation and warmwater aquatic life.

Under the Standard Industrial Classification (SIC) Code 4911, the applicant operates a groundwater treatment system facility with a flow of 0.144 million gallons per day (MGD).

This is a renewal of a permit issued October 22, 2004, with an effective date of November 1, 2004, and an expiration date of July 31, 2009.

Changes from the previous permit are:

- A. WET monitoring requirements added.
- B. PCB report only requirement added.
- C. Temperature report only requirement added.
- D. Dissolved Oxygen report only requirement added.

A statement of basis is available.
