012	29° 49' 38" N 95° 9' 12" W	Harris	7.2	Carpenters Bayou	1006B

Under the SIC code 4612, Crude Petroleum Pipelines, the applicant plans to operate a crude oil pipeline and related facilities. The proposed permit is for the hydrostatic testing of new 36-inch steel pipe, new above ground steel tanks and ancillary facilities.

A Statement of Basis is available, and describes the rationale for permit conditions. The facility is planning to construct the Houston Lateral Oil Pipeline Project originating from its existing Keystone Pipeline near Moss Hill, Texas (Liberty County) to the Moore Junction Tank Terminal in the Houston Farms area north of Channelview, Texas (Harris County).
