 The applicant's mailing address is:

Energy Transfer Company, Texas Processing Inc.  
 Jackson Gas Plant

The discharges from this facility are as described in the table below:

Outfall Reference Number	Discharge Coordinates Latitude Deg° Min' Sec'' Longitude Deg° Min' Sec''	Type of Discharge	Discharge Volume MGD	Receiving Water	Water Body Segment

The proposed changes from the previous permit are:

1. Permitted process wastewater discharge is changed to non-process wastewater (i.e. reverse osmosis reject water).
2. An additional Outfall 003 which conveys stormwater only from the pipeline equipment has been established.

This is a revoke and reissue of an existing permit and EPA proposes that this permit be issued. A Statement of Basis is available, and describes the rationale for permit conditions. Under the SIC Code 1321, the applicant operates a natural gas processing plant.
