

On December 11, 2014, EPA Region 6 Water Quality Protection Division announces issuance of the National Pollutant Discharge Elimination System (NPDES) general permit for storm water discharges from municipal separate storm sewer systems (MS4s) located in the Middle Rio Grande Watershed in the State of New Mexico. The permit offers discharge authorization to regulated MS4s within the boundaries of the Bureau of the Census-designated 2000 and 2010 Albuquerque Urbanized Areas and any other MS4s in the watershed designated by the Director as needing a MS4 permit. This permit is intended to replace both the individual NPDES Permit NMS000101 issued on January 31, 2012, and the expired general permits NMR040000 and NMR04000I for dischargers in this watershed area.
