

Public Notice

Final National Pollutant Discharge Elimination System (NPDES) General Permit No. NMR04A000 for discharges from municipal separate storm sewer systems (MS4s) located in the Middle Rio Grande Watershed in the State of New Mexico was issued and became effective on December 22, 2014. Under terms of this permit, MS4s are required to submit a Notice of Intent (NOI) to obtain coverage under the permit. As outlined in the General Permit, EPA is providing an opportunity for the public to review each NOI and information on each of the storm water minimum control measures in Part I.D.5 of this permit.

The NOI for the City of Albuquerque, Bernalillo County, Department of Energy/Sandia National Laboratories and Sandia Corporation are now available for public review. Comments or requests for a public meeting/hearing are due by October 31, 2015. If you wish to obtain hard copies of these documents or wish to submit comments, you may do so in writing, by e-mail or calling as below.
