

§ 2404. Emission Control Labels and Consumer Information – 1995 and Later Small Off-Road Engines.

* * * *

(m) Zero-Emission Equipment Label Content and Placement.

(1) A manufacturer of zero-emission small off-road equipment has the option to place a label on a piece of equipment, which has earned zero-emission equipment credits, to facilitate identification of such equipment by the ultimate purchaser that the equipment was certified as zero-emission small off-road equipment, and thereby meets the required professional-level specifications indicated in Table 1, subsection 2108.1(b)(4)(D), as applicable.

(A) Such label must read, "This is a professional-level, California-certified zero-emission [indicate equipment type]."

(B) Use of this option does not relieve a manufacturer of zero-emission small off-road equipment of the other label requirements.

(2) The manufacturer of zero-emission small off-road equipment must submit, with its certification application, a statement attesting that its label(s) comply with these requirements.

(3) Samples of all such labels used by a manufacturer of zero-emission small off-road equipment must be submitted to the Executive Officer within thirty days after the start of production.
