Contra Costa County, California (Newly violating with 2018 design value)
Gila County, Arizona (Newly violating with 2018 design value)
Inyo County, California (Newly violating with 2018 design value)
Lake County, California (Newly violating with 2018 design value)
Butte County, California (Newly violating with 2018 design value)
Marin County, California (Newly violating with 2018 design value)
Shasta County, California (Newly violating with 2018 design value)
Yolo County, California (Newly violating with 2018 design value)
Nye County, Nevada (Violating with 2018 design value)
Pinal County, Arizona (Violating with 2018 design value)
Santa Barbara County, California (Violating with 2018 design value)
Solano County, California (Violating with 2018 design value)
West Pinal

The 1971 national ambient air quality standard (NAAQS) for coarse particulate matter (PM$_{10}$) is not to exceed one estimated exceedance day of 150 micrograms per cubic meter (µg/m$^3$) per year on average over a 3-year period. The Ajo and Miami, AZ planning areas, Indian Wells Valley, Mammoth planning area, Ballhead City, East Kern, and Payson designated areas are not represented due to lack of data, or values are less than what can be displayed. X-axis labels represent the last year of a monitor’s 3-year time period. All exceptional event data (e.g., high winds and wildfires) that EPA has concurred on have been excluded from design value calculations.

AIR19100 - 2018 annual air quality update - PM10.xlsx (November 13, 2019)
