MEMORANDUM

SUBJECT: Extension of Comment Period for 10th Conference on Air Quality Modeling

FROM: George M Bridgers, Model Clearinghouse Director 
Air Quality Modeling Group, C439-01

TO: Docket #: EPA-HQ-OAR-2012-0056

In the January 31, 2012 Federal Notice publication regarding the 10th Conference on Air Quality Modeling (Modeling Conference), it was announced that the public comment period on how the Agency determines and applies air quality models and on material presented at the Modeling Conference would remain open through April 16, 2012. In consideration of the extensive amount of material provided for review just ahead of and presented at the Modeling Conference, we are extending the comment period by two weeks to allow more time for commenters to assemble and provide their constructive comments, recommendations, and feedback.

With the submission of this memorandum to the Docket (EPA-HQ-OAR-2012-0056), the comment period for the 10th Conference on Air Quality Modeling is hereby extended to April 30, 2012. All comments should be submitted to the Docket by the close of business on April 30 and per the instructions that were provided in the Federal Register publication.

If there are any questions regarding this comment period extension, please contact George Bridgers of EPA's Air Quality Modeling Group at (919) 541-5563 or bridgers.george@epa.gov.
