

Ad-Hoc Meteorological Modeling Meeting

Agenda

May 26-27, 2004

Red Roof Inn Denver Airport

Denver, CO

Day 1

NOTE: Many of the meeting participants are also attending the National RPO Modeling Meeting that is being held in Downtown Denver. That meeting is over at noon, so given transportation logistics we all may not be there right away. Don't worry, we will be there so please don't think the meeting was cancelled if only a few people are milling around at 12:30 or 1 pm. Thank you.

01:15 Treatment of Clouds by CMAQ and the Influence of These Clouds on Sulfate Aerosol Formation (S. Mueller - TVA)

02:00 Sensitivity of MM5/NOAH to the land-surface parameterization and land use/land cover data for the Houston-Galveston area and its impact on the air quality simulations (D. Byun – U. of Houston)

03:00 Three Dimensional Data Assimilation for High Resolution Weather and Pollution Forecasting in the Los Angeles Basin (M. McAtee – The Aerospace Corporation)

04:00 Model Performance for Annual 2002 Simulation (D. Olerud - BARON)

05:00 Adjourn

Day 2

08:00 Issues and Use of Multiple Networks and Special Studies for Meteorological Model Performance Evaluation (C. Emery - Environ)

09:00 MM5 PBL Structure and Wind Performance with a Modified MRF scheme (C. Tremback - ATmet)

10:00 VISTAS Annual Met Modeling: Results and Lessons Learned (D. Olerud - BARON)

11:00 WRAP MM5 Modeling Performance Evaluation (Z. Wang – UC Riverside)

NOON Adjourn

Hotel Information

There is not a block of rooms because room availability should not be a problem. Rooms are usually around \$60.00-70.00 a night. We've used this place for meetings before so don't worry that it is not nice (like I did originally).

Red Roof Inn Denver Airport
6890 Tower Road
Denver, CO 80249

Inn Phone: (303) 371-5300

Inn Fax: (303) 371-5350
