

NOTE

December 5, 1991

TO: Laurie Ostrand, MD-15
Tom Coulter, MD-14
Dean Wilson, MD-14

FROM: Mindy Mohr *Mindy*

SUBJECT: East Helena Lead SIP - Protocols for Design Value
Determination, and Model "Verification"

Enclosed are the two protocols which Asarco promised to provide to us, during the November 5th meeting. We'll review them here at the Regional Office, especially with regard to what was discussed at the meeting. I'd appreciate any comments you have, especially if their proposals violate any current (or future) policy for lead SIPs. If possible, we'd like to respond to them by December 27th (3 weeks after receipt of this material), therefore please provide any comments by 12/23/91.

Thank you for your assistance (both past and current)!
