SUBJECT:

Addendum to the Niagara Frontier Modeling Protocol

FROM:

Raymond Werner, Chief
Impact Assessment Section

Ray

TO:

Joseph Tikvart, Chief
Source Receptor Analysis Branch (MD-14)

As agreed to during our February 5, 1985 meeting with Dean Wilson and New York State, the State has submitted a modeling procedure which will fulfill the Section 1.e of the December 26, 1984 modeling protocol for the TSP attainment demonstration for the Niagara Frontier. We request a quick evaluation of the proposal by your staff and a response by April 12, 1985. Fran Gombar of my staff is available for all discussion on this topic.
