MEMORANDUM

SUBJECT: Request for Use of ISC 6.2
FROM: *James W. Yarbrough*
Dean A. Wilson, Meteorologist
Techniques Evaluation Section, SRAB (MD-14)
TO: James W. Yarbrough, Air Modeling Contact
Region VI (6T-AN)

In response to your request, the Model Clearinghouse concurs with your position that Change 2 of the ISC model in UNAMAP 6 may be used for the five PSD analyses referenced in your memorandum of November 3, 1988. However, we also recommend that you review the status of these permits when the necessary corrections to ISC have been completed and are available. If, at that point in time, the analyses are not substantially underway, then these sources should be modeled with the corrected version of ISC.

If you have any questions please contact me.

cc: D. deRoeck (MD-15)
