MEMORANDUM

SUBJECT: Request for Use of ISCST and ISCLT Version 6.2 in Twin
Oak Steam Electric Station PSD Application

FROM: *Dean A. Wilson*
Dean A. Wilson, Meteorologist
Techniques Evaluation Section, SRAB (MD-14)

TO: James W. Yarbrough, Air Modeling Contact
Region VI (6T-AN)

In response to your request, the Model Clearinghouse concurs with your position that Change 2 of the ISC model in UNAMAP 6 may be used for the Twin Oak Steam Electric Station PSD analysis. As was the case in our previous concurrence for the five Texas PSD sources (November 9, 1988 memorandum), we recommend that you review the status of this permit when the necessary corrections to ISC have been completed and are available. If, at that point in time, the analysis is not substantially underway, then this source should be modeled with the corrected version of ISC.

If you have any questions, please contact me.

cc: D. deRoeck (MD-15)
S. Reinders (MD-14)
Regional Modeling Contact, Regions I-V, VII-X (with incoming memorandum and list of the FY-89 Clearinghouse memoranda)

FY 89 MODEL CLEARINGHOUSE MEMORANDA
