DATE: November 7, 1991

SUBJ: NHARD Modeling Guide

FROM: *Ian D. Cohen*
Ian D. Cohen, Regional Meteorologist
Technical Assistance Section

TO: Dean Wilson, Model Clearinghouse Contact
Source Receptor Analysis Branch

A SIP Revision which is currently being processed will make reference to New Hampshire's "NHARD Policy and Procedure for Air Quality Impact Modeling". This will make the document part of New Hampshire's SIP through "incorporation by reference".

I reviewed the document last summer, and a copy of my comments is attached. I do not foresee any additional problems, but before submitting a final list of corrections which need to be made, I would appreciate it if you could review the attached copy for any inconsistencies with EPA policy. I would especially like someone to take a look at appendices A and C to be sure that they represent current policy.

Thank you for your time, and I look forward to your response.

2 Atch: 1. Memo July 3, 1991 from Ian Cohen to David Conroy
2. NHARD Modeling Guideline

FY-92 MODEL CLEARINGHOUSE MEMORANDA

<u>Date</u>	<u>Region</u>	<u>Subject</u>
10/16/91	IV	Dade County, Florida, Stack Height Increase
