SUMMARY: On December 31, 2008, EPA published a document finalizing the update of the Florida Outer Continental Shelf (OCS) Air Regulations. That document inadvertently listed the incorrect filing action date for petitions for judicial review. This document corrects that inadvertent error.

DATES: Effective Date: This rule is effective on February 26, 2009.

FOR FURTHER INFORMATION CONTACT: Sean Lakeman, Air Permit Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. The telephone number is (404) 562–9043. Mr. Lakeman can also be reached via electronic mail at lakeman.sean@epa.gov.

SUPPLEMENTARY INFORMATION: EPA is making a correction to the document published on December 31, 2008 (73 FR 78196), finalizing the update of the Florida OCS Air Regulations. EPA made an inadvertent error on page 78197, column 2, last full paragraph. This paragraph begins with the phrase, “Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 17, 2008”. This date does not correctly allow for the 60 day filing period. EPA is now correcting the date on page 78197, column 2, last full paragraph by replacing it with the following date: “March 1, 2009”.

Authority: 42 U.S.C. 7401 et seq.

A. Stanley Meiburg,
Acting Regional Administrator, Region 4.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: On December 1, 2008, EPA issued direct final amendments to the national emission standards for hazardous air pollutants (NESHAP) for Electric Arc Furnace Steelmaking Facilities. These amendments were issued as a direct final rule, along with a parallel proposal to be used as the basis for final action in the event EPA received any adverse comments on the direct final amendments. Because an adverse comment was received, EPA is withdrawing the direct final rule.

These amendments were issued as a direct final rule, along with a parallel proposal to be used as the basis for final action in the event EPA received any adverse comments on the direct final amendments. We stated in that direct final rule that if we received adverse comment by December 31, 2008, we would publish a timely withdrawal in the Federal Register. Because an adverse comment was received, EPA is withdrawing the direct final rule published at 73 FR 72727 on December 1, 2008 as of February 26, 2009. We will address the adverse comment in a subsequent final action.
based on the parallel proposal published on December 1, 2008 (73 FR 72756). As stated in the parallel proposal, we will not institute a second comment period on this action.

40 CFR Part 271
Nevada: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Immediate final rule.

SUMMARY: The State of Nevada applied for final authorization of revisions to its hazardous waste management program under the Resource Conservation and Recovery Act (RCRA), as amended. The Environmental Protection Agency (EPA) has determined that these changes satisfy all of the requirements necessary to qualify for final authorization, and is authorizing the State’s changes through this immediate final rule. EPA is publishing this rule to authorize the changes without a prior proposal because we believe that this action is not controversial and do not expect comments that oppose it. In the Proposed Rules section of this Federal Register, EPA is also publishing a proposal to authorize these changes to Nevada’s hazardous waste management program. Unless we receive written comments that oppose this authorization during the comment period, the decision to authorize Nevada’s changes to its hazardous waste management program will take effect as provided below. If we receive comments that oppose this action, we will publish a document in the Federal Register withdrawing this rule before it takes effect and the separate document in the proposed rules section of this Federal Register will serve as the proposal for purposes of this rulemaking action. EPA will respond to public comments in a later final rule based on the proposal. Nevada’s application for program revision is available for public review and comment. EPA may not provide further opportunity for comment. Any parties interested in commenting on this action should do so at this time.

DATES: Final authorization will become effective on April 27, 2009 unless EPA receives adverse written comment on or before March 30, 2009. If EPA receives such comment, it will publish a timely withdrawal of this immediate final rule in the Federal Register and inform the public that this authorization will not take effect.

SUPPLEMENTARY INFORMATION:
A. Why are Revisions to State Programs Necessary?
States which have received Final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal program. As the Federal program changes, States must revise their programs and ask EPA to authorize the revisions. Revisions to State programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must
