MESSAGE: Project Update

What is the purpose of this notice?

We are announcing the availability of the information we will present at our next roundtable meeting. This meeting will be held on Tuesday, July 13, 1999, in Research Triangle Park, North Carolina. We provided details of the meeting in a previous notice that we sent to you dated June 15, 1999.

How can we obtain a copy of this information?

We have posted the information on our website at http://www.epa.gov/ttn/uatw/coat/mfurn/met_furn.html, under "Announcements." There are three files you should download. The first is rt4_pres.wpd, which is a WordPerfect file that contains the information we plan to present at the roundtable meeting. The other two files are table_1.xls and table_2.xls, which are Excel tables of our supporting data.

What if I don't have access to the Internet or I can't open a WordPerfect or Excel file?

You may contact Mohamed Serageldin (see above) to make alternate arrangements.

Will there be any further information made available before the roundtable meeting?

This is all of the information we plan to make available prior to the roundtable meeting. However, you should periodically check the metal furniture website to see if we have posted any announcements.
