**Subject:** RE: Marathon cited FCCU HCN test reports in comment letter  
**Attachments:** Marathon FCCU and CRU process data.xlsx

Karen,

Please find attached a list of the requested Marathon CRU and FCC test data. Based on the most recent information that I had, you needed the process data for Marathon's 2005 Catlettsburg CCR tests, the 2005 Robinson CCR tests, and the 2011 Robinson HCN test.

Please let me know if you need any additional information.

Hi Charlie: I am Karen Schaffner with RTI International in RTP, North Carolina, and I am working with EPA's OAQPS on the Proposed AP-42 Emission Factors. I work with Gerri Garwood at EPA.

I also left a voicemail for you a few minutes ago. Your commenter letter on the proposed Flare emissions factors had an attachment with 3 additional FCCU HCN test summaries. Would it be possible to get the full test reports to review? I already have a copy of the Detroit April 2012 test report. I would very much also like to have full test reports for:

Robinson IL July 2010  
Garyville LA March 2014

Sharing by email would be great, or RTI has an ftp site also. Please let me know if you need any other information.

Thank you in advance for any help you can offer. Karen Schaffner
