Transmitting production data for USS Clairton Works during the tests of battery combustion stacks for HCl emissions

Sent on October 4, 2006

Chairman Combustion Stack tests

<u>Bat</u>	<u>Date(s)</u>	<u>Tons Coal / Hour (Average)</u>
B	3-8-2000	134.0
1	4-19 & 20-2000	46.6
2	5-31 & 6-1-2000	48.4
3	6-7 & 8-2000	46.5
9	2-8 & 21-2000	49.1
13	7-12 & 13-2000	50.6
14	7-26 & 27-2000	51.9
19	9-20-2000	41.3
20	10-11-2000	44.1

note - t/hr calculated from total coal charged for entire test days divided by ~~the~~ the number of test days, then divided by 24 hours.
