DATE: January 25, 1979

SUBJECT: Consistency in VOC Regulations

FROM: G. T. Helms, Chief
Control Programs Operations Branch (MD-15)

TO: Chief, Air Branch, Regions I-X

Attached is a memorandum delineating a detailed review that my staff conducted for the petroleum marketing VOC categories. As can be seen, draft State regulations for these categories appear to be in good shape except for certain cutpoints. Since we will be discussing the issue of consistency at the next Branch Chiefs' meeting, would you please review this prior to the meeting.

Thanks.
