

and employers engaging in collective bargaining and 31 states having statutes providing for such bargaining.

The Council believes it important to expand and improve available data on state and local government employee compensation, and is carrying out this study in furtherance of its statutory charge to meet that need. The study will include: (1) comparison of data now collected on employee compensation in the private sector with that collected on state and local government employee compensation; (2) identification of major gaps in the data for state and local government employees; (3) recommendations for the collection of additional data to fill the gaps identified; (4) estimation of the cost of implementing the recommendations, including whatever burdens will be imposed on state and local governments. The study will be carried out in cooperation with representatives of state and local governments, employee organizations in that sector, and Federal statistical agencies.

This notice is intended to announce a public meeting to discuss the Council's paper on Federal Government compensation data for state and local government employees and to solicit from interested parties their knowledge of other data that are available and their suggestions for collecting data that are needed but not available. The meeting will be held on April 30, 1976, at 10 a.m. in room 2008 of the New Executive Office Building, 726 Jackson Place, NW., Washington, D.C., 20506. Any person wishing to present views at this meeting should by April 23, 1976 submit his or her name, the nature of his or her interest in the study, a summary of the views to be presented, and the amount of time requested for presentation to Mr. Morris Feibusch at the Council on Wage and Price Stability, Room 4020, New Executive Office Building, 726 Jackson Place, NW., Washington, D.C., 20506, telephone (202) 456-6757. Persons interested in observing but not participating should contact Mr. Feibusch by April 28, 1976 to arrange for building clearance.

MICHAEL H. MOSKOW,
Director.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION PRIVACY ACT OF 1974

Additional Routine Uses—Congressional Inquiries

On January 21, 1976 the Energy Research and Development Administration (ERDA) published in the FEDERAL REGISTER (41 FR 3117) a "Proposed Amendment of Systems of Records, Additional Routine Uses" pertaining to congressional inquiries. Interested persons were invited to submit comments. No comments have been received.

The proposed amendment is hereby adopted without change as an addition to ERDA—Notices of Systems of Records

Appendix AA—Additional Routine Uses. This additional routine use as set forth below, applies to all ERDA systems of records under the Privacy Act.

APPENDIX AA—ADDITIONAL ROUTINE USES

9. Congressional Inquiries—Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the Request of that individual.

(Note: ERDA Appendix AA, Items 1 thru 8, appears at 40 FR 49930, 10-29-76; Notices of ERDA systems of records appear at 40 FR 49889, 10-24-75).

AUTHORITY: 42 U.S.C. 5815; 42 U.S.C. 2201; and 5 U.S.C. 552a.

Dated: April 8, 1976.

RAYMOND G. ROMATOWSKI,
*Assistant Administrator
for Administration.*

ENVIRONMENTAL PROTECTION AGENCY

[FRL 516-2]

AIR POLLUTION PREVENTION AND CONTROL

Addition of Lead to List of Air Pollutants

Section 108(a) (1) of the Clean Air Act, as amended December 31, 1970 (Public Law 91-604), directed the Administrator of the Environmental Protection Agency to publish, no later than January 30, 1971, and from time to time thereafter revise, a list that includes each air pollutant which in his judgment has an adverse effect on public health or welfare, which is present in the ambient air as a result of emissions from numerous or diverse mobile or stationary sources, for which no air quality criteria were issued prior to the enactment of the amendments, and for which he plans to issue air quality criteria under section 108(a) (2) of the Act.

Within twelve (12) months from the inclusion of a pollutant on the list, the Administrator is required to issue air quality criteria for such pollutant, to issue information on air pollution control techniques, and to publish proposed national ambient air quality standards.

In compliance with the order dated March 1, 1976 of Judge Stewart in NRDC et al. v. Train, S.D.N.Y. 74 Civ. 4617, and pursuant to section 108(a) (1) of the Clean Air Act, as amended (42 U.S.C. 1857c-3(a) (1)), the air pollutant lead is hereby added to the list of air pollutants published on page 1545 of the FEDERAL REGISTER of January 30, 1971.

Prior to the order in NRDC et al. v. Train, the Administrator had not planned to issue air quality criteria for lead under section 108(a) (2), and had accordingly not placed lead on the list of air pollutants. The Administrator had determined to control the lead air pollution problem through the strategy of fuel additive control under section 211 (c) of the Clean Air Act, as amended

42 U.S.C. 1857f-6c (regulations recently upheld in Ethyl Corp., et al. v. EPA, D.C. Cir. No. 73-2205 (March 19, 1976)) and has under consideration the possible issuance of New Source Performance Standards under section 111 of the Clean Air Act, as amended (42 U.S.C. 1857c-6). Accordingly, in the event that NRDC, et al. v. Train is reversed on appeal, the air pollutant lead will be withdrawn from this list.

Dated: March 31, 1976.

RUSSELL E. TRAIN,
Administrator.

CITIES SERVICE CO.

Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Cities Service Company, Cranbury, New Jersey 08512. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 1109-EUP-1) allows the use of 3.9 pounds A.I. of a fungicide which is a mixture of copper abietate, copper linoleate, and copper oleate on peaches to evaluate control of bacterial spot. A total of 68 trees is involved; the program is authorized only in the State of Missouri. The experimental use permit is effective from March 15, 1976, to March 15, 1977. An exemption from the requirement of a tolerance for residues of the active ingredient in or on peaches has been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WE-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: April 5, 1976.

JOHN B. RITCH, Jr.,
Director, Registration Division.
